# The ArchiMate® Forum

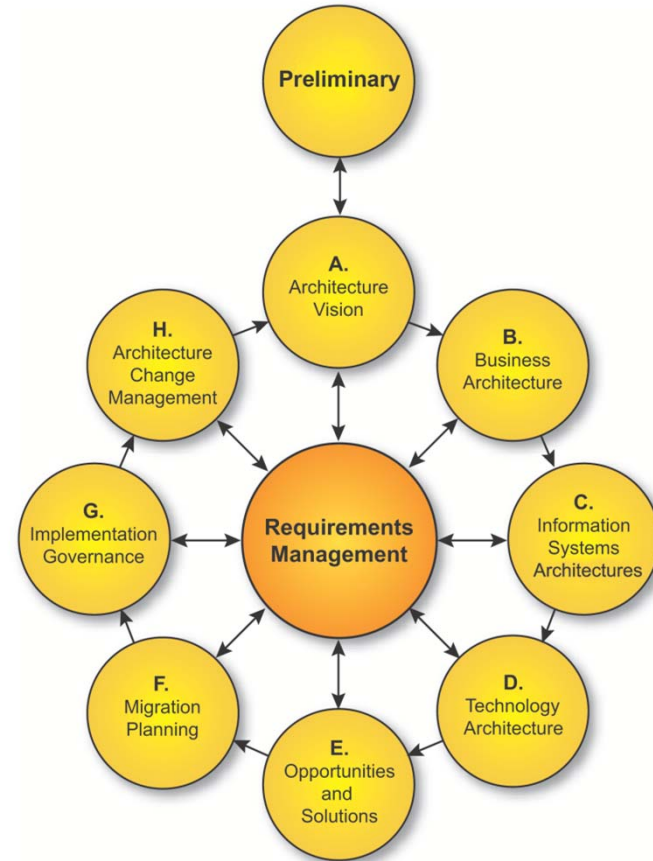

Henry Franken

The Open Group: Chair ArchiMate Forum  
Professional\_life@BiZZdesign

Amsterdam, October 2010

# ArchiMate® adds value to TOGAF™

- ❑ TOGAF is the leading enterprise architecture framework
- ❑ ArchiMate is an open and independent graphical modeling language for enterprise architecture
- ❑ TOGAF is the recognized delivery method for enterprise architecture artifacts and ArchiMate is a modeling language used to express them
- ❑ ArchiMate is therefore the ideal candidate to deliver TOGAF enterprise architecture models

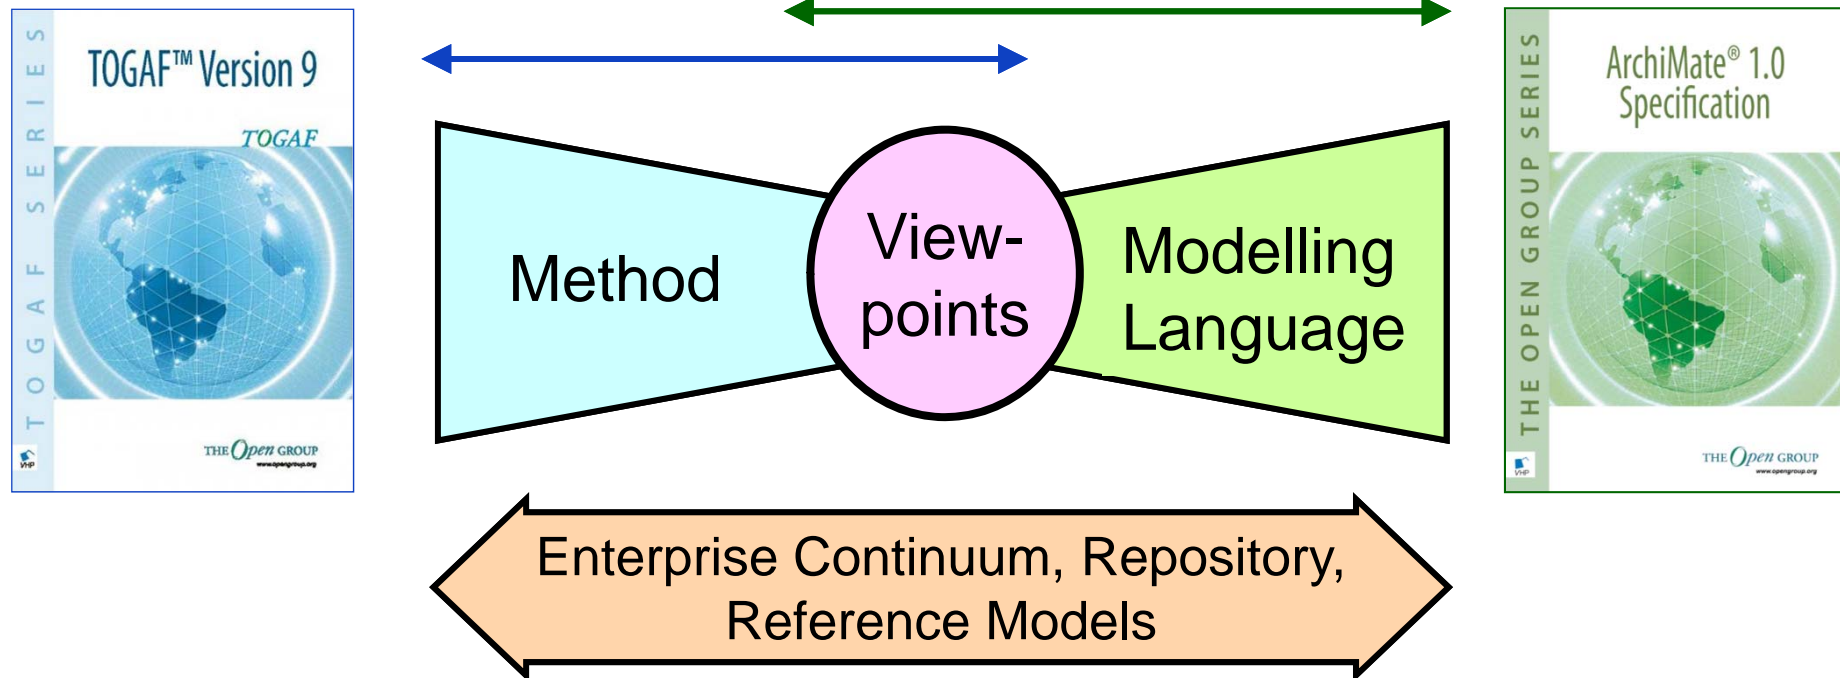

TOGAF 9

# ArchiMate® adds value to TOGAF™

TOGAF

ArchiMate

**TOGAF and ArchiMate overlap in their use of viewpoints  
They both have a common foundation**

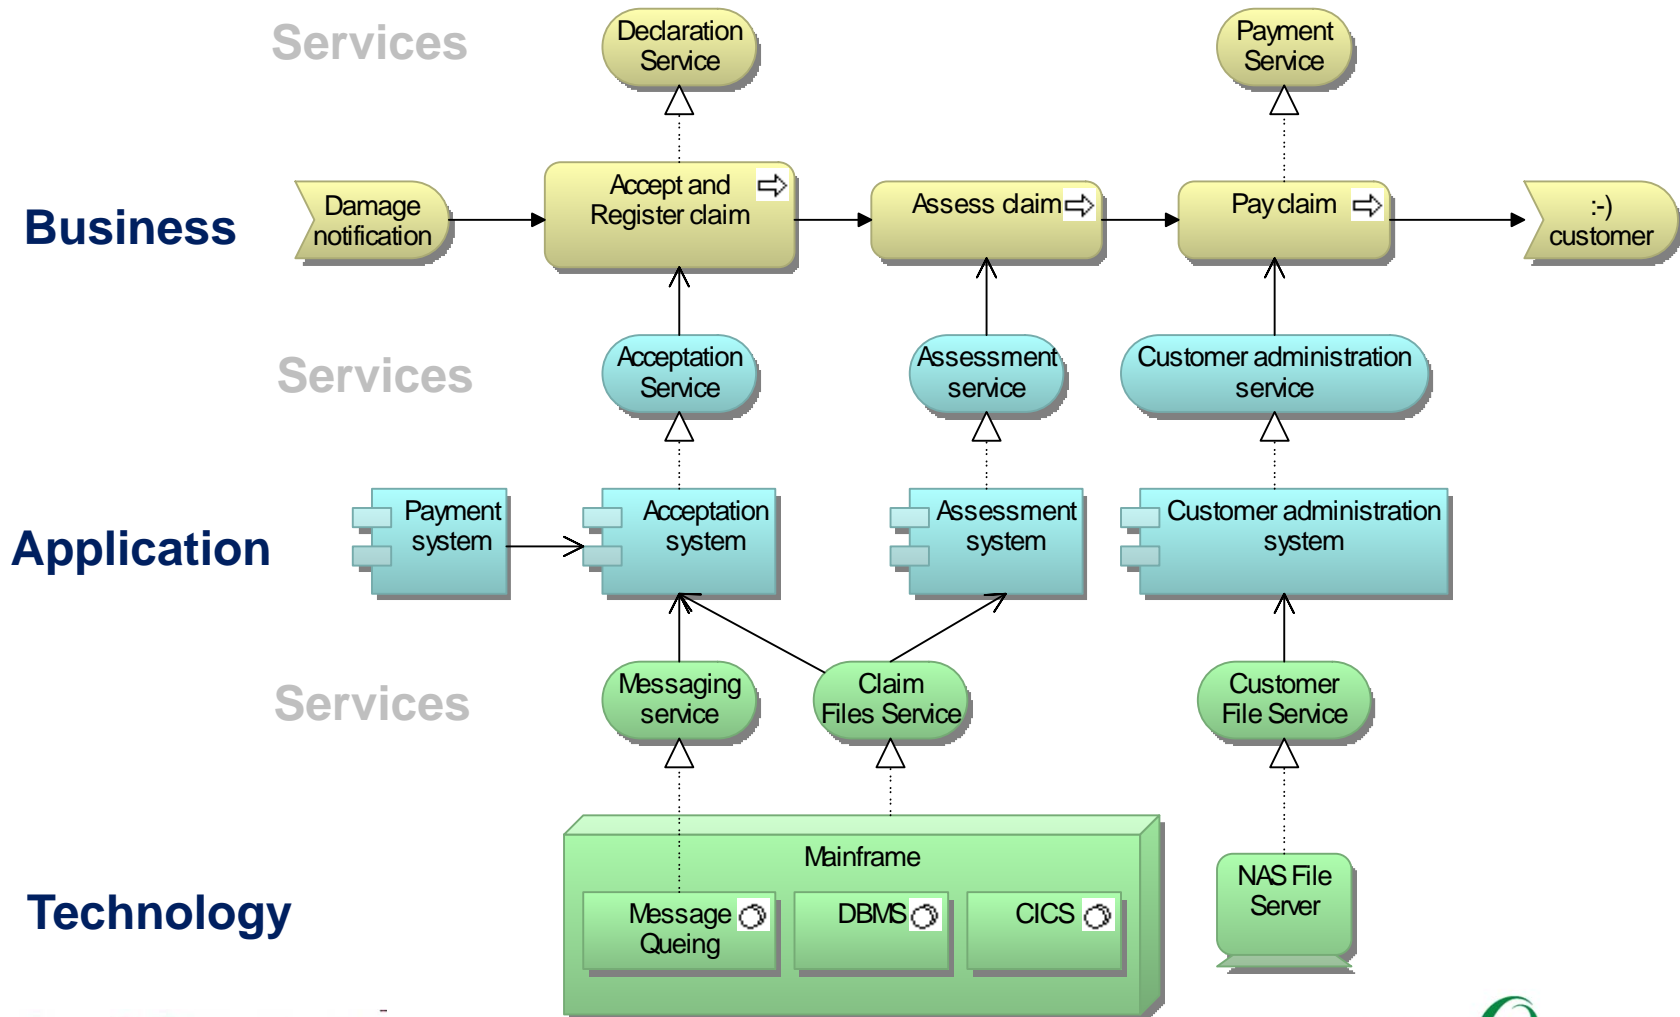

# What is ArchiMate?

---

- ❑ A graphical modelling *language* for describing enterprise architecture
- ❑ Covers business, application and technology
  - With relations between these layers
  - Service oriented
- ❑ Techniques for *visualization, analysis* and *communication*: aimed at various stakeholders
- ❑ Open standard maintained by The Open Group
- ❑ Supported by tools vendors, service providers & educational institutions world wide
- ❑ See [www.opengroup.org/archimate](http://www.opengroup.org/archimate)

# ArchiMate example

# What does the ArchiMate Forum do?

---

- ❑ A platform and community for everyone involved with the use and evolution of the ArchiMate specification
- ❑ Share knowledge and best practice
- ❑ Meet and network with peers
- ❑ Help develop ArchiMate
- ❑ Contribute to the convergence needed to reach the next level of professional development in the field of enterprise architecture

# Forum deliverables up till now

- ❑ ArchiMate 1.0 specification
- ❑ Certification criteria and policies
  - for tool, training & individuals.
- ❑ White papers
  - TOGAF™ 9 and ArchiMate® 1.0
  - TOGAF™ and ArchiMate®: A Future Together
  - Supporting Requirements Management in TOGAF™ and ArchiMate®
  - Extending ArchiMate® with the *motivation* domain and *migration & implementation* domain

# Status forum work products

---

- ❑ White papers ArchiMate extensions:
  - Based on gap analysis TOGAF and ArchiMate
  - ArchiMate Extension for Modeling and Managing Motivation, Principles and Requirements in TOGAF
  - ArchiMate Extension for Modeling TOGAF's Implementation and Migration phases
- ❑ Draft of language specification:
  - Small correction collected
  - Motivation extension
  - Implementation & Migration

# Forum Roadmap

---

- ❑ Publish certification criteria tool, training and individuals
- ❑ Document and publish case studies
- ❑ Publish extensions on ArchiMate
- ❑ Develop Archimate examination questions
- ❑ Volunteers for ArchiMate UML stereotype workgroup
- ❑ Work together on further aligning TOGAF & ArchiMate
  
- ❑ Communicate and collaborate!

# Learn more about ArchiMate!

---

- Do you want to know more?
- Many case presentations on Wednesday:
  - 9.00 – 12.30 ArchiMate session
  - Join in and learn more!

# ArchiMate Forum: Members

Installed base of ArchiMate users over 10.000 world wide
