# ***Product Standard***

---

## **NAME**

LDAP Certified V2

## **LABEL FOR LOGO**

LDAP Certified

When this logo is used on, or in relation to, a product registered as conformant to this Product Standard, it must be accompanied by an attribution, in the form defined in the Trademark License Agreement,<sup>1</sup> which includes the LDAP Certified Product Standard name.

## **DESCRIPTION**

The LDAP Certified V2 Product Standard defines requirements for Directory servers for interoperation with LDAP clients.

## **CONFORMANCE REQUIREMENTS**

A single configuration of the system shall implement the features of the BASE profile of the *LDAP Features for Certification, Version 2* specification.<sup>2</sup>

In addition, a conforming product may implement the features of the STANDARD profile of the *LDAP Features for Certification, Version 2* specification.

The Conformance Statement must state whether the product implements the features of the STANDARD profile.

## **OPERATIONAL ENVIRONMENT**

This Product Standard places no requirements on the operational environment of a conforming product.

## **PORTABILITY ENVIRONMENT**

This Product Standard places no requirements on the portability environment of a conforming product.

  2. LDAP Documentation, April 2004, LDAP Features for Certification, Version 2 (I041), published by The Open Group.

## OVERRIDING STANDARDS

The following are overriding standards for this Product Standard:

- IETF RFC 2251<sup>3</sup>
- IETF RFC 2252<sup>4</sup>
- IETF RFC 2253<sup>5</sup>
- IETF RFC 2254<sup>6</sup>
- IETF RFC 2255<sup>7</sup>
- IETF RFC 2256<sup>8</sup>
- Secure Sockets Layer Protocol (SSL), Version 3<sup>9</sup>

## INDICATORS OF COMPLIANCE

A Test Report from the currently authorized release of the VSLDAP Test Suite. Refer to [www.opengroup.org/testing](http://www.opengroup.org/testing) to ascertain the currently authorized version of the test suite.

## MIGRATION

This is the second version of this Product Standard. Its provisions relating to BASE profile certification are unchanged from the first version.<sup>10</sup> No products certified against the first version claimed conformance to the features of the STANDARD profile. There are therefore no migration issues.
